## CONTEMPORARY FEATURES

Large expansive windows, window walls and large openings are all features of a modern, contemporary home. Loewen has a product mix that provides great solutions for contemporary design challenges.

C

Picture units are designed to give maximum views with minimal wood framework. Create large window walls by combining picture, casement and awning windows together.

1

B

Loewen windows can join the narrow trims and sleek molding look of metal frame exteriors, with the textures and warmth of a wood frame. All this without any increased costs or thermal penalties.

◀ This corner sample of a picture window shows the thin lines and flat profile that can be achieved with cut down jambs and square glazing stops.

2

D

E

▲ The use of square interior glazing stops lends itself to a more contemporary design.

F

## CONTEMPORARY PRODUCTS

Loewen windows are available in a large variety of specialty shapes to fit the aggressive geometrics and unique architecture of a contemporary style home.

G

◀ Corner windows provide a unique view and are available in both a direct butt glazed option, or with a thin corner mullion.

## LIFTSLIDE

Loewen LiftSlide doors allow expansive glass panels to roll smoothly and easily into a pocket or a stack. This door not only provides a panoramic view but also extends the living space of your home.

## MULTISLIDE

MultiSlide doors allow for large openings, like a LiftSlide door but with a much narrower stile. These doors are perfect for blending indoor/outdoor living spaces. ▶

## CONTEMPORARY HARDWARE

### CONTEMPORARY CASING

The use of the Contemporary Casing gives a narrow, clean and crisp look to the exterior of the window by concealing the accessory groove of the metal clad frame.

### HARDWARE

Selecting a style and finish that reflects your unique taste is a critical part of creating the right look. This is why Loewen offers a wide range of handles, locking systems and other hardware options for our windows and doors.

### RETRACTABLE SCREEN

Constructed of solid wood to conceal the screen hardware and designed with minimal obstruction to the viewing surface, these custom screens are the perfect complement to our existing lineup of douglas fir and mahogany windows. The edge of the band is fully concealed within the horizontal pull down rail while the integrated braking system allows for one-touch retraction.

## COLORS AND FINISHES

Loewen uses only pre-finished extruded aluminum cladding to better protect window and door exteriors and eliminate the need for painting. The Loewen contemporary series features Anodized Aluminum Finishes and Metallic Painted Finishes.

### ANODIZED FINISHES

For a durable alternative to paints and organic coatings, our anodized finishes offer a rich matte look that reduces sunlight glare and allows the aluminum to maintain its metallic appearance. In addition to the aesthetically desirable etching, our Anodized Finishes also increase resistance to corrosion and abrasion on the aluminum. This aluminum is 100% recyclable and uses a water-based process with no volatile organic compounds for eco-friendliness.

### METALLIC PAINTED FINISHES

Loewen's Metallic Painted Finishes provide the perfect finishing touch for fulfilling your vision, while also providing industry leading quality and performance to uphold it.
